they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfolk tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly developinto one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be auddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by empty of the body. Hence the occasional use of a bottle of this Sarsaparille is advisable, even when no active symptoms of disease annear. Persons afflicted with the following com-

From the New-York Tribune. A Prayer for President Grant. March 4, 1869. BY BEV. G. L. TAYLON, M. A.

> Our country's God, to thee This day we bow the knee. Thy grace t implore For him, our nation's choice, Called by thy mighty voice, While pullions, free, rejoice From shore to shore.

When Freedom's traitor foes la War's dread carnage rose, When battles roared, Thou, by his mortal hand, Did'st save Earth's beacon land, Till now, redeemed, we stand, Praising the Lord!

III. Thou whose Almighty power Shiolded in peril's hour, Shed him in peace; Save from ambition's spell, Bave from temptation, fell; Save him from earth and hell;— Let love increase.

Now, while he swear's God's oath While sea and shore peal forth Freedom's great chant, Hear, from Heaven's firmament With our glad thunder's rent, God bless our president!

God bless our Grant!!
